

Are you auto-motivated? Welcome!

Automotive Product Development Process, Communication in Automotive

Summer Practice Program

Practical Example – Applying the Process for Testing on System Level

Description of Automotive Product Development Process.

Presentation of Car Architecture, Communication Protocols, Diagnostics, Tools used in Automotive.

Design System Requirements, design and implement Test Requirements and apply them on a practical example.

Registration conditions:

**student in 2nd and 3rd year of study in
one of the specializations:**

- Computer Science and Information Technology
- Multimedia Systems Engineering
- Applied Electronics
- Electromechanics

Subscription at: S.L.drd.ing. Horia CAPRITA

Computer Science and Automatic Control department, Faculty of Engineering, Room IE113

Place: Continental Engineering Center

For more details please contact:

Continental Sibiu – 0369 433 494/0369 433 388

Start date: 11.07.2011

End date: 29.07.2011

Limit date for registrations: 15th of May 2011
